Election, Tuesday. Nov. 6. UNION MEETINGS. REPUBLICAN UNION STATE COMMITTEE, Hibens Neverolitan Hotsi, New York. HAML HARRIS, Chairson BOTHETER, Oct. 30, 1856.—It became known at 6 o'clock that Gen. Butler would reach Rochester to-night, and in less than two hours our City Hall was crowded to sufficiation to hear him speak.

He was immediately escorted there, and delivered a long and masterly speech. full of logic and humor, which held the audience in close attention and roused them to enthusiasm from the beginning till its close.

He explained and defined the constitutional amendment as far as it goes, but made an eloquent appeal for more ample justice to the colored loyalist. His excertations of the Presidential policy was exceedingly able, and his description of the charge of his black brigade at New-Market Hights was touching and affecting. No speech of the campaign has elicited more enthusiastic applause.

Each subordinate union is particularly requested to see that every soldier or sailor in their immediate neighborhood is duly registered, and to make every exertion to have them at the pells on election day, and to see that they sole. Col. Geo. F. Hopper, the present efficient chairman of the Executive Committee, and his conductors, have been untiring in their exertions during the present canvass, and to their labors the society owes its present prosperity. NEW-JERSEY.

To the Editor of The N. Y. Tribune. Sin: It is a source of profound regret that, while the loyal people of New-Jersey are laboring so assista-ously to keep their State in its place in the Union line, the Union State Central Committee have done nothing this year to aid in the work. On the contrary, the labors of the campaign have devolved entirely upon the town and local committee. No general provision has been made to supply speakers for the canvass of the State, to prepare and circulate documents, and to raise the funds 'necessary for the election. ments, and to raise the funds necessary for the election.

Hence there is a great want of concert throughout NewJersey. Speakers are badly needed, but, as none have
been engaged by the responsible central authority, they
have to be picked up wherever they can be found. This
takes the most active men out of the counties, at a time
when their gervices are most peeded, chasing about NewYork by the day at a time to hunt up such chance
assistance as can be obtained, and leaves no time for the York by the day at a time to must up such chance assistance as can be obtained, and leaves no time for the due announcement of the meetings. The action of the Committee is construed by our friends abroad to indicate that we are not in need of pecuniary sid. So that, whereas we might have carried all flive of our Congressmen, we are now in dauger of defeat in two Districts for the lack of the necessary sinews of war. And this in the face of the fact that the Administration is using all the appliances of office and money to defeat the Republican candidates. There is hardly a township in the State where the placemen of Mr. Johnson have not been spurred on to secure the success of "My Policy" in at least one Northern State. What has the New-Jersey State Committee done to counteract these efforts? Absolutely nothing. Such suprincess is auticidal. We submit that the next State Convention will do well to guard against a recurrence of this shameful apathy, or something worse. A reform must be effected.

If we are to elect merely honorary Committeemen, the sooner it is known the better. There are working men enough in the party ready and willing to serve; and if present easy-going, indifferent members intend to persist in their do-nothing policy, the soener they give way to more active men the better.

Paterson, Oct. 25, 1866.

Paterson, Oct. 25, 1866.

In so far as the above blames the New-Jersey State Committee for not appointing a series of meetings, procuring the services of a corps of speakers, and thoroughly canvassing the State, we presume it te right; but its talk of "the sinews of war" is absurd and insulting. The whole business of spending money in elections, otherwise than in enlightening the voters, is wrong and pernicious, and we rejoice in this testimony that our friends in New-Jersey repudiate it. They can carry their State bandsomely without buying or bribing any man's help .- [Ed.

GOVERNOR FENTON AND THE PARDONING POWER.

A gentleman of this city addressed a letter to Gov. Fenton, a few days ago, stating that he could not consist ently vote for him at the coming election, on account of his undue exercise of the pardoning power during his term of office. The following reply was sent him by the Secretary of the Governor, which is deserving the careful attention of every voter:

STATE OF NEW YORK. EXECUTIVE DEPARIMENT.

ALBANY, October 19, 1866.

DEAR SIR: In reply to your letter of the 17th inst. I take the liberty of inclosing a comparative statement of the number of pardons annually granted since 1851, and a copy of a communication recently addressed by the Governor to a gentleman in your city. When you consider that the number of convictions and applications for clomency has steadily increased. I feel assured that you will see the injustice of statements freely made in the heat of a political contest, and tending to create mistaken views as to the extent of the exercise of the pardon lap power by the present Executive.

made in the heat of a political contest, and tonding to create mistaken views as to the extent of the ascercies of the pardoning power by the present Executive.

Very respectfully yours.

STATE OF NEW YORK, EARCHTVE DEPARKENT.

ALBANT, July 29, 1866.

MY DEAR Sir: Your letter of the 10th last, has been received. You seem to appreciate the embarrassments that surround that most difficult and delicate branch of Executive duty—the paradoning power. I have aimed to be careful in the exercise of this prerogative, but have found the applications for interposition so numerous, and many of them attended with so many complications, that I could hardly hope to escape criticism in all cases where clemancy was extanded. Indeed, I have been impressed with the conviction that a new Constitution should at least partially relieve the Governor of a duty which involves labor and investigation far beyond his power to bestow without the neglect of equally pressing public business. In a few cases only where I have issued pardons have subsequent developments led me to change my original opinions. An exparte presentation of a case very often is attended with a concealment of facts anterior to conviction that would have a strong influence upon the judgment of the Executive. Such was the case with a few pardons granted in your city.

The records of the Department show that my predecessors have been quite as free to exercise the power as syself, and have. I think, granted a greater number of pardons while fewer applications (and I must presume they experienced similar difficulties) were made. The volume of petitions for clemency years in our material wealth and prosperity tends to a corresponding increase in all departments of Executive duty.

I have endewored to discharge the duties devolving upon me with dee confideration, and faithfully. I trust to the indulgence of an intelligent and just people for an approval, at least, of my motives.

or a literal motives.

Thanking you for your consideration, which is especially grateful at a period when hatch judgments are any to prevail, I remain.

Very truly your friend, R. E. FENTON.

The Hon. ALANSON KING.

of Burlington states, that arms. ammunition, and equip-ments for 8,000 men have been forwarded to various points along the border from Burlington to Whitehall, and that active preparations are being made in other por-tions of the state for a movement on the Canadians in the event of the execution of Lynch and McMahon, the

Fenian raiders. There is unquestionably good foundation

for the statement. "I--TEN THOUSAND IRISHMEN IN COUNCIL AT CHICAGO. CRICAGO, Oct. 30.-The Fenians held a great meeting here to-night at Court-square, to protest against the ac-tion of the Canadians in reference to the condemned

tion of the Canadians in reference to the condemned Irishmen. There were 10,000 people present at the meeting, and all its proceedings were characterized by great earnestness and enthusiasm.

Speeches were made by Henry Greenbaum, a banker of this city: D. D. Driscoll, city Attorney, and others. Resolutions were adopted to the effect that the policy of the United States has ever been a lenient one to offenders, whether from Canada or elsewhere, and that if Canada shall take the measures contemplated in reference to the Fenian prisoners they will be speedly avenged by their friends on this side of the line. The tone of the meeting was decided, and very significant.

ANOTHER INDIGATION MEETING IN RUFFALO.

BUFFALO, N. Y., Oct. 30.—In spite of the heavy raintorm, there was another large Fenian meeting held here last night, at the Court-House. The feeling of indigna-

inst light, at the Court-noise. The feeling of intense, then against the British authorities in Causada was intense. The Fenian Senator Morrison and others spoke, stirring the assemblage up to the highest degree of enthusiasm. The Irish are recruiting men rapidly, and a large amount of money is being collected. Even the women are at work. The war spirit is rampant. IMMENSE MEETING IN CINCINNATI-FOUR COMPANIES

RECEUITED.

CINCINNATI, Oct. 30.—The Fenians of this city assembled in large numbers at the Armory last evening. Great excitement was manifested over the news from Toronto and Washington. Many of those who participated in the Buffalo expedition were present. Head Center Fitzgerald mustered into the Fenian service four full companies of men. Arrangements have been completed for uniforming and arming as many men as may be mustered into the service in this city.

MASS MEETING IN PHILADELPHIA-RESOLUTIONS ADOPTED.

PHILADELPIDA, Oct. 30.—At a meeting of the Fenian

Brotherhood of Philadelphia, held at Logan Hall this evening, to express their sentiments on the conviction and sentence of Col. Lynch and the Rev. John McMahon, the following preamble and resolutions were offered by James Gibbons, Chairman of the Committee, and unanimously

adopted:

Whereas, The conviction and sentence of death, passed on Col
R. Lynch and the Rev. John McAfshon, in a Canadian Court
is another evidence of the brain and vanishitive spirit of per
fidicus Britain, and in keeping with that bleedy code of law indicus Fritain, and in keeping with that bloody code of laws that has been inflicted by her neuprations upon the people of Treland during the last 200 years, and whereas, Chief-Justice Wilson, one of the representatives of British royalty on this continent, in passing sentence, read a lecture full of that eats and that hypoeries pectilar to English phinanthropy on the belongs crime it making war on a people who never did them any harm, while the Government he represents has been making relenties, bloody and exterminating war on the people of Ireland for percentions, a people who never injured falleland on the contrary educated her ignorant kings when her people were barried in Saxon burbarism; and scherous, The fearned Jedge, while filled with boly bover at the so-called crime of Col. Lynch and others, forget in his zenithe aid and

nian soldiers to strike to Limestone Ridge. Resolved, That we look on the trials conviction and rentences.

Lynch was born in Gulery in 1818. He was at one time chief Clerk in the Begartinent of the Feure of Charitable Donafons and Begrette Bubble Costle, and retained that yet from 1857 to 1842, when he emigrated to the States. He can goed in business is St. Louis for a line, but left there in 1849, and traveled to imany of the leading cities in the South American Republies and West Indies. He rubsequently foined the American army, and was Quartermanter, with the runk of Major, in the 24th Wisconsin Volunteers. Furing the latter part of the war he was chief clerk, with the runk of Major, in the Discharge Department of Louisville. Subsequently, he says, he came to Canada, under the direction of Adjutant Qu. McDemott, of the F. B of Louisville, Ky, to report the Fenian campaign in Canada. This is the prisoner account of himself, but other versions of his career, assign him a residence of some years in Western Canada. (Canada paper.

Fenian prisoners here.
The Hon. John Hilliard Cameron, Crown Counsel, has applied for a writ of hadeas corpus to take the three Fenians from here to Toronto to be tried with those new at Toronto. The Crown Counsel also moved for the sentence of outlawry against Mike Murphy and the other Fenians who escaped by breaking jail. The names of those sent to Toronto are Keys, Hartwell and Kelly.

to-day on "Andrew Johnson and the Fenians." You have, however, omitted to notice perhaps the most shame have, however, omitted to notice perhaps the most shameless and flagrant act of bad faith on the part of the President
toward the enthusiastic and unsuspecting Irish. Gen.
John O'Neil of Nashville, Tenn., a gentleman of unimpeachable veracity, who took a leading part in the ill-fated
Fenian invasion of Canada, and won a victory over the
"Queen's Own," stated in a speech in Nashville that prior
to ten. Meade's proclamation, over 20,000 stand of arms,
the property of the United States, had been sold to the
Fenian agent, with the approval of the President. The
money of the betrayed Fenians, much of which had been
paid in by poor servant girls and inborers, was scarcely
pocketed by the Executive when he ordered Gen. Meade
to call out the troops "to crish the unlawful enterprise."

THE DRAMA.

OLYMPIC THEATER. A new drama by Mr. Boucleault always attracts

the attention of the public, and generally deserves the weighty consideration of the critic. The "Long Strike" from the pen the attention of the public, and generally deserves the weignly consideration of the critic. The "Long Strike" from the pea of the gentleman we have named was produced here last night. Its success was unequal, but the inequalities may, we think, be traced to the performance, which was evidently hurried. It may be hinted too that the subject the "lock out" or the obstinate struggle between musters and toon.—Is somewhat local. We have "strikes" here, but the "masters" have not yet combined in the clenched way which they did in Manchester, where the scene of the green in the trace of the drama there is much to like in it. Mr. Boucicault's fine some of culmination is seen in the gradual involvement of the leading characters, and in the production of situations which display at once his ingenuity and knowledge of human nature. We have notime, to night, to dwell on the merits of the play, or to point out, as we subsequently shall do, its defects. Both are strongly marked. In the first and second acts theil action is somewhat tardy. In the third Mr. Boucicault theiarest excitement—the telegraph uses—with a skill which can hardly be exaggerated. The best round of applause was won by the inarticulate rappings of the telegraphic machine. We mention this lastly because it shows how carefully the dramatist must have wreight up the effect. There is a trial scene in the fourth act which may be effective hereafter. Last evening it was rendered very imperfectly, and was the cause, we think, of the curtain descending on a performance which otherwise deserved the approbation of the audience.

AN ORGAN EXHIBITION AND SACRED CONCERT will be given this evening at the Allen-st. Presbyterian Church. Prof. Warren, Miss Ella Mayer and other soloists will take
